

CAMPAIGN FOR POOL IN LINCOLN NEXT.

EFFORT WILL BE MADE TO ORGANIZE TOBACCO GROWERS. CROP PROSPECTS.

With good progress being made in the campaign to pool the 1910 tobacco crop in the counties south of the Kentucky river, the next to be invaded by the Burley Tobacco Society will be Lincoln. Arrangements are already being made for speaking dates in this county for the organizers of the Society and a hard fight will be made to pool much of the big crop which is going to be raised by Lincoln county farmers this season.

The argument that is going to be presented to the Lincoln growers for their consideration in the question of pool or no pool, is that unless the pool is a success, the price of tobacco will go back to where it was before the first successful pool made it worth while to grow the weed in this section. A hard fight is being made on the pool in some sections, but its friends are working all the harder and say that the success of the pooling of this year's crop is already assured.

Bradley Wilson, organizer for the Burley Society, south of the river, has been meeting with splendid success in his efforts to organize the Garrard county tobacco growers. He spoke to a large crowd in the courthouse at Lancaster Monday and Col. Joel Fort, who played such an important part in organizing the dark tobacco growers of Tennessee, also spoke with Mr. Wilson. The latter has about completed work of organizing the pool in Garrard and will then come to Lincoln county and make a strong effort to convince the tobacco growers their interests are inseparably bound up in the success of the pooling movement.

In this connection some very interesting figures have been compiled by the Cincinnati Enquirer regarding the production of tobacco this year. The Enquirer says: This year's crop of tobacco in the United States will not be far from 70,000,000 pounds greater than the crop of 1909 and that broke all previous records. The nearest approach to last year's crop in size was that of 1909, when according to the figures of the Bureau of Statistics of the Department of Commerce and Labor there were planted in the United States 1,011,460 acres, from which the production was 68,112,365 pounds valued at \$56,857,902. According to the same authority last year's acreage was 1,130,300 and the production 94,357,000 pounds, valued at \$94,717,365.

This area is, perhaps, too large by 50,000 acres, as that of Kentucky is reported at 420,000, where it could not at the most have exceeded 370,000. The returns this spring of the acreage planted last year, as reported to the Enquirer for this review, show an average of 365,440, about one third of all the tobacco raised. This still will leave the area planted in 1909 stand as the record to that time, 1,132,255 acres and make the production about 94,958,400.

The crop of 1910 has been planted practically everywhere or will be in a few days. The indications are that about 1,100,000 acres of tobacco will be planted in 1910, which is not less than 1,000,000,000 (probably more) pounds of leaf tobacco should be harvested. Another year of extension of this industry and the tobacco production of this country should be well established beyond the 1,000,000,000 pound mark.

The tobacco area of the three Ohio valley states, Kentucky, Ohio and Indiana is the greatest tobacco producing field in the United States, or in the world. The combined acreage is 495,425 and is almost one-half that of the total tobacco producing acreage of the United States. It is the greatest burley field in the world and outside of burley territory produces other types of such excellent quality that they are sought for by the manufacturers of the highest grades of smoking and chewing brands in all parts of the world.

The area planted in Kentucky this year is 30,000 acres greater than in 1909. Planting conditions were very mixed. Some reports were very discouraging, while others say the plants were never set out under such favorable conditions; that they were strong and have grown well and promise record yields. About half the acreage is white burley the other types being red burley, dark stemming, Green River, French, Italian, Turkish Yellow Prior, Regia types, Blue Prior, Onionco and almost countless other varieties, even standard types yielding almost new varieties when introduced into new districts.

Up The Cumberland.

BOAT TRIP BEAUTIFULLY DESCRIBED BY MR. CARSON

Burnside, June 23. Editor Interior Journal:—

Burnside is a fine little city, nestled among the mountains of southern Kentucky, situate on the Cumberland river.

Last Saturday the Woman's Home Mission Society of the Methodist church of this place gave an excursion down the Cumberland on the good steamer Rowena, which is owned by the Burnside and Burville Transportation Co. Our crowd was rather large but there was plenty of room for all, even for the children, to play.

Many of the best people of our community and of Somerset were in this crowd; a special train was run by the C. N. O. & T. P. railroad for the Somerset people.

Our boat left the wharf at two P. M., reached the lock, No. 21, at 5:15; left there at 6 P. M., reaching Burnside at 10:15. The scenery along the Cumberland cannot be surpassed; nature is dressed in her most gorgeous robe at this time of the year and the hill sides and fields and meadows on our either side were a feast to any lover of the beautiful. There are some places along this river where the cliffs are very precipitous and the rocky ribs of these hills added to the attractiveness of the scene as they protruded among the foliage.

It is not very often possible to secure the opportunity for an excursion on the Cumberland, for the water is generally so low at this time of the year that our regular steam boats can not ply this high, but the late rains this year have given us steam boat water longer than usual, consequently we are enjoying nature's gifts. The best part of a trip of this character is the return by moonlight, to see the moonbeams playing upon the waters and the fields and cliffs; no one can describe such scenery, especially when we enter ever and anon into the shadow cast by some very high cliff and are given the beautiful sight of the searchlight's play upon all around.

From this meagre description you can get some idea of our afternoon and evening pleasure, but you can never appreciate such until you have experienced a like trip for yourself, which I trust that you, as Interior Journal readers, will be soon privileged to enjoy. JOHN W. CARSON.

REAPING BENEFIT

From the Experience of Stanford
People.

We are fortunate indeed to be able
to profit by the experience of our
neighbors. The public utterances of
Stanford residents on the following
subject will interest and benefit thou-
sands of our readers. Read this state-
ment. No better proof can be had.

John T. Barnett, carpenter, Row-
land street, Stanford, Ky., says: "I
used a great number of kidney reme-
dies within the past three years and
can say that Doan's Kidney Pills gave
me the first relief. My work obliged
me to do heavy lifting and stooping at
times, and this weakened my kidneys.
I suffered from a pain across the
small of my back that often became
so intense I was unable to do any-
thing. I was feeling miserable when
I learned of Doan's Kidney Pills and
they were recommended so highly
that I procured a supply at Shugars &
Tanner's drug store. This remedy
gave me almost instant relief and for
that reason, I gladly recommend it."

For sale by all dealers. Price 50
cents. Foster-Milburn Co., Buffalo, N.
Y., sole agents for the United States.

Remember the name—Doan's—and
take no other.

AN EXPERT'S OPINION OF SKIN DISEASES

A prominent national expert on
skin diseases whose name you are fa-
miliar with says that in all his sci-
entific experience he has never found
so hard a disease to conquer as Ec-
zema. Yet he does not hesitate to
recommend Zemo as a most success-
ful remedy for the treatment of Ec-
zema, itching skin diseases, dandruff,
pimples, blackheads and all other dis-
eases of the skin and scalp. He says
that not only do its curative qualities
make it popular but also the fact that
it is a clean liquid remedy for external
use. A great improvement over the
old style greasy salves and lotions
which are not only unpleasant to use
but do not destroy the germ life that
destroys the disease. Zemo draws the
germs to the surface and destroys
them, leaving the skin clear and healthy.
Can be used freely on infants.
Mr. G. L. Penny will gladly supply
those who call with a free sample bot-
tle of Zemo and a booklet which ex-
plains in simple language all about
skin diseases and how to cure your-
self at home with Zemo.

SAVED AT DEATH'S DOOR

The door of death seemed ready to open for Murray W. Ayers, of Transit Bridge, N. Y., when his life was wonderfully saved. "I was in a dreadful condition," he writes, "my skin was almost yellow; eyes sunken; tongue coated; emaciated from losing 40 pounds, growing weaker daily. Virulent liver trouble pulling me down to death in spite of doctors. Then that matchless medicine—Electric Bitters—cured me. I regained the 40 pounds lost and now am well and strong." Free Child's Remedy

What mother is not looking for something that will help her children in the little ills of life, something for the stomach trouble and the bowel trouble? Long ago she probably has become convinced that a child cannot readily swallow a pill or a tablet, and that to "break them in half and crush them" is an annoyance; that usually they work too drastically, and are nauseating and too powerful for the little one's stomach.

Any mother who will take the trouble of sending her name and address can obtain a free sample bottle of a remedy that thousands of other mothers are using and now paying for. This remedy is Dr. Caldwell's Syrup Pepsin, and the offer of a free trial bottle is open to any mother who has not yet used it. Having used it and convinced yourself that it is what you want, you can obtain it in the future of your druggist at fifty cents and one dollar a bottle, just as so many others are doing, the free sample being simply to convince you of its merits. It is the best way to begin on it. Mrs. L. Davis of 127 W. Harrison street, Chicago, and Mrs. Mary Belford, 2710 Coke street, Louisville, Ky., both started with a free sample and now they write that they have never been without a bottle in the house since.

It is undoubtedly a great family remedy, as it is adapted to all ages, being mild and pleasant to take and yet thoroughly effective. It is especially the ideal remedy for children and women and old folks, who need something pure, mild and natural. It has the advantage of being a thorough laxative and yet contains tonic properties. Use it for the most stubborn constipation, indigestion, liver trouble, sick headache, sour stomach and such complaints with a guarantee that it will cure.

Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family pertaining to the stomach, liver or bowels absolutely free of charge. I explain your case in letter and he will reply to you in detail. For the free sample simply send your name and address on a postal card or otherwise. For either request the doctor's address is Dr. W. B. Caldwell, R. 599 Caldwell building, Monticello, Ill.
